MEMORANDUM FOR The Military Personnel Management Officers of All States, Puerto Rico, the Virgin Islands, Guam, and the District of Columbia

SUBJECT: Operational Guidance for Increasing Enlistment Age for Army National Guard (NGB-ARH Policy Memo #05-026)

1. References:

- a. Memorandum from Office of the Under Secretary of Defense, Subject: Exception to Policy – Test Program to Raise the Non-Prior Service Enlistment Age to 40 in the Army Reserve Components, 17 Mar 05.
- b. Memorandum from Office of the Deputy Chief of Staff G-1, Subject: Exception to Policy – Test Program to Raise the Non-Prior Service Enlistment Age to 40 in the Army Reserve Components, 18 Mar 05.
- c. USAREC Message 05-124, Subject: Maximum Age Change for Army Reserve Enlistments, 18 Mar 05.

2. Purpose: Effective immediately, the Army has implemented guidance with approval of The Office of the Secretary of Defense to increase the age limit for Non-Prior Service (NPS) applicants. This increases the Age for all Army National Guard (Department of Army Guard (DAG) coded) NPS applicants from 35 years to 39 years old. Any applicant over the age of 35 processing for enlistment shall not be allowed to change the Service Processing for (SPF) code to any other service (Active or Reserve).

3. Responsibilities: To ensure that this program is as effective as possible, it is both a Service and USMEPCOM responsibility to ensure that affected personnel are familiar with the procedures to enter and change date of birth (DOB) in the MEPCOM Integrated Resource System (MIRS). MEPS shall brief these procedures to the Army National Guard Guidance Counselors to ensure that the data in MIRS is as correct as possible. Current policy allows only those under the age 35 to be entered into MIRS. This new policy will bypass the 35 year age limit for non-prior service (DAG only), and allows them to be entered into MIRS and continue processing.
